Инструменты и аксессуары для ювелирных работ

Argon Mini Small Argon Tank for Permanent Jewelry

The Argon Mini will easily fit in a backpack, large purse, Orion mPulse carrying case, or even in your back pocket! Perfect for pop-up's and other remote events, the Argon Mini is easy to tote from one place to another. Check out these hugely beneficial small features:

- Weight 2.7 lbs.
- 11.75 inches high
- 2.75 inch diameter

The Argon Mini is available in packs of 2, 4, 6, and 8. The price per tank lowers when the purchase quantity increases. Every Argon Mini shipment, regardless of how many tanks are included, requires an additional \$45 hazardous material fee mandated by the shipping carrier. **The hazardous material fee is included in the price displayed for each pack.**

Purchasing Tip: The hazardous material fee is per shipment, NOT per tank. You'll save money when you order more tanks in one shipment.

The Argon Mini is designed for one-time use only. **The tank cannot be refilled.** However, the tank can be recycled with a local metal recycler (ask your local recycler for more information on how to prepare your tank for recycling). To that point, Sunstone encourages you to recycle all depleted tanks.

Argon Mini Regulator

The Argon Mini tank requires the Argon Mini Regulator for Orion and Zapp permanent jewelry welders. This regulator attaches to the Argon Mini tank, regulating the pressure between the tank and your permanent jewelry welder.

- Low Pressure Precision Regulator
- 1/4" Quick Tubing Connector (for use with Orion and Zapp permanent jewelry welders)
- Dual Press Gauges (measuring tank pressure and line pressure)

Pilot Electrode Sharpener for Permanent Jewelry

With the Pilot you'll sharpen an Orion tungsten electrode quickly and perfectly. Simply power on the base rotary tool and insert the electrode in the guiding hole. The Pilot properly aligns the electrode with the grinding wheel. No more guessing about proper angles!

The Pilot's rotary body is slim and contoured to comfortably fit your palm. Powered by a lithium ion battery and 3.7 V motor, the Pilot provides hours and hours of use. Simply use the included power cord to charge the battery when needed. Also select from three different no-load speeds, from 5,000 to 15,000 rpm, with LED indicator.

Precision Plier for Permanent Jewelry

Grounding leads for Orion permanent jewelry welders are used for grounding chain in order to close a link. Every Orion permanent jewelry welder comes standard with two alligator clips grounds. Use these precision pliers to achieve a better grasp of one link of fine chain.

- Smaller peak for better handling
- Banana connector keeps the pliers connected securely to the welder
- 3' of grounding cable
- 18 AWG cable handles all the power your Orion permanent jewelry welder will ever produce

Orion Crosslock Tweezer for Permanent Jewelry

You always want to use the right tool for the right chain. The Orion crosslock tweezer grounding lead provides two key benefits you won't find with other grounding leads: First, The find point lets you grab a link of even the finest chain; and second, the locking mechanism means you won't lose a grip on the chain.

And Bonus Feature: The Orion crosslink tweezer is a grounding lead. Simply move the chain to the electrode to close the link!

Other key features and benefits:

- **103 mm Length:** Shorter than other similar crosslink pliers so it fits better in your hand.
- **Premium Sterling Steel:** Won't tarnish and acts as a superb ground.
- **3' 18 AWG Cable:** Plugs into your Orion permanent jewelry welder, replacing the standard alligator clip ground.
- **Rubber Heat Shrink Protection:** The grounding cable connection is protected and ready to go to work.

Deluxe Argon Gas Regulator for Permanent Jewelry
