Аппарат импульсно-дуговой микросварки Orion 200 i

The Most Advanced Pulse Arc Welding Technology in the World!

The Orion 200i micro TIG welding system is packed with features that resolve your welding challenges. The Orion 200i catapults your welding capabilities to a whole new level. Sunstone's revolutionary pulse arc welding technology produces the widest range of welding power and the most precision available.

Features

- Widest power range of any micro TIG welding system!
- The most extensive spot size range (this feature allows you to work on both tiny & large pieces with the same unit).
- The Orion i-Series has a spot range of $\approx 0.25 - 4\text{mm}$.
- Energy settings start as low as 0.01 Ws of energy for extremely precise, intricate welds.
- High-End power tops out at 200 Ws or 250 Ws (depending on the model) for thick welding.

Increased Control

The Orion i-Series is the only micro TIG welding system with three different welding waveforms. These waveforms allow you more control over your weld settings, on how the energy is released. As the unit is designed to work with almost every metal in the world, each of these responds differently to the different welding parameters. The Orion i-Series Welding System allows you to customize the weld energy for every metal that you are looking to weld.

The Orion™ 200i provides power control from as little as 0.01 joules and as much as 250 joules. You'll appreciate its space-saving footprint, color touchscreen control, and incredible precision.

Key Benefit: **Precision and Power**

Select power in 0.01 Ws increments —That’s up to 20,000 available power settings! Work can be done in sizes ranging from microns all the way up to 5mm. Whatever it is you weld, Orion has the power to get the job done precisely.

Technology Advantages: **Ignition Settings**

Prolong the life of your electrode by determining when the electrode will release the weld. This safeguards the electrode from misfires and sticking to the workpiece. In turn, you spend more time welding and less time sharpening an electrode.

Key Features: **Easy to Learn. Simple to Use.**

Touchscreen Simplicity

All features are controlled using the vibrant 10-inch color touchscreen interface on the front of the welder. The Orion 200i is a 100% pure digital dream!

Weld Speed Modes

No work piece is too small or too big. Dial the power down to 1 Joule (Ws) of energy or leverage 150 Joules (Ws) of available energy for larger jobs.

Advanced Energy Control

With the Orion 200i you can choose how you want energy delivered to your work piece, providing endless creative possibilities.

Highest Quality Standards

When you purchase an Orion 200i, take confidence in knowing that it was designed, produced, and assembled to the highest quality standards in the industry.

World Renown Customer Service

With more than 15 years of micro welding experience, our team of experts can help you resolve any welding challenge.

Product Specifications

TABLETOP FOOTPRINT (L X W X H)	40.6x12.7x26.7 cm
ENERGY RANGE (JOULES)	1-200 J
ESTIMATED WELD SPOT DIAMETER RANGE	≈ 0.1 - 4.5 mm
DISPLAY (TOUCH SCREEN)	25 cm
WELD SPEED	1 weld/0.2 seconds
HIGH FREQUENCY AGITATION OPTIONS	Advanced
SAVE SETTINGS SPACES	Unlimited
5X MAGNIFICATION	●
IR/UV EYE PROTECTION THRU MICROSCOPE	●
20+ ON-SCREEN LANGUAGES	●
ARC START TECHNOLOGY	●
TACK MODE	●
BASIC SCREEN METAL PRESETS	●
UPGRADEABLE SOFTWARE	●
ON SCREEN TRAINING VIDEOS	●
